Listing of Claims:

1. (currently amended) A method of conducting a wagering game on a gaming machine, the method comprising:

receiving only a single wager from a player to purchase a series of plays of a basic portion of the game;

in response to the single wager, providing the player with the series of plays; randomly generating at least one outcome for each play; and providing an accumulation feature that accumulates an element of the game over a plurality of the plays in the series.

- 2. (previously amended) The method of claim 1, wherein the basic portion is selected from a group consisting of slots, poker, keno, bingo, blackjack, and roulette.
- 3. (previously amended) The method of claim 2, wherein the accumulation feature is triggered by a special outcome in the basic portion.
- 4. (original) The method of claim 1, wherein the accumulated element is a position on a trail, ladder, or meter.
- 5. (previously amended) The method of claim 4, wherein the position identifies a credit amount, a multiplier, a number of free plays of the basic portion, a bonus round, or movement to another position on the trail, the ladder, or the meter.
- 6. (original) The method of claim 1, wherein the accumulated element is a collected object.
- 7. (original) The method of claim 6, further including triggering a bonus in response to collection of a predetermined number of the object during the series of plays.

- 8. (original) The method of claim 1, wherein the accumulation feature is reset to include no accumulated elements prior to each purchased series of plays.
- 9. (original) The method of claim 1, wherein each play includes at least one respective random event that is independent of other plays in the series.
- 10. (previously amended) The method of claim 9, wherein the game includes the basic portion and a bonus feature triggered by a special outcome in the basic portion, the at least one random event being associated with the basic portion.
- 11. (original) The method of claim 1, wherein each play includes at least one random event that is interdependent of one or more other plays in the series.
- 12. (previously amended) The method of claim 11, wherein the game includes the basic portion and a bonus feature triggered by a special outcome in the basic portion, the at least one random event being associated with the bonus feature.
- 13. (original) The method of claim 1, further including redeeming the accumulated element for a bonus in response to a predetermined event in the game.
- 14. (original) The method of claim 13, wherein the predetermined event corresponds to collection of a predetermined number of the element.
- 15. (original) The method of claim 13, wherein the predetermined event corresponds to a certain position of the element on a trail, ladder, or meter.
- 16. (original) The method of claim 1, further including providing an award to the player if the outcome is a winning outcome.

- 17. (previously amended) The method of claim 1, wherein the basic portion includes a slot game having a plurality of symbol-bearing reels that, during each play in the series, are spun and stopped to place symbols on the reels in visual association with a display area.
- 18. (previously amended) The method of claim 1, wherein the basic portion includes a draw poker game having a plurality of playing cards that, during each play in the series, are dealt from a deck and selectively replaced with substitute cards from the deck.
